

Slideout roof protection and a full length window awning all in one!

Carefree's Exclusive

Omega II™ Awning

Patent #5171056

The Omega II is the elegant two-awnings-in-one solution!

Fail safe, easy to operate Arm Storage
Locks secure the Omega II to the slideout.

Includes built-in aluminum case to prevent billowing. No locks to remember, just extend the slideout. Omega II extends automatically with the slideout. To extend the window awning portion, simply unlock the arms and pull out! Awning arms and aluminum case are available in White, Cameo, Satin and custom colors. The Omega II fits slideout rooms from 5' to 15' with extension up to 44". Includes aluminum roller tube and hardware.

No additional locks or anti-billow gadgets to install or adjust!

**Now with built-in full length aluminum case to prevent billowing.
No locks; just extend your slideout!**

Select the fabric construction you want! Five choices:

- 1 All vinyl – Carefree's most economical and durable fabric
- 2 All FullView – No water pooling, perfect if you want debris protection
- 3 A vinyl roof cover with FullView awning – Durable protection above with a see-through awning
- 4 All PolyWeave vinyl – The look of acrylic with the rugged durability of vinyl
- 5 All Acrylic – Beautiful, "breathable" fabric, choose from ten standard and more than 140 custom Sunbrella colors

► Find prices & specifications for the Omega II on page p-7 and Guardi-Awn on page p-8

Operates independently of your slideout. It's a cover and a Window Awning all in one!

Carefree's Exclusive

Guardi-Awn™

1 Insert the hand crank into the gears and begin to turn.

2 As you turn, the Guardi-Awn lifts up and tilts away.

3 The Guardi-Awn rolls out over the edge of the slideout . . .

4 . . . and into the window awning position!

You don't have to retract your slideout to retract the Guardi-Awn. Like the Omega II Awning, the Guardi-Awn keeps dirt and debris off the top of your slideout and out of your RV while it shades the window and keeps the interior of the RV cool and comfortable.

Crank operation allows you to tighten down the canopy to prevent flapping. Fits slideouts up to 15' with extensions of 18" to 38".
